MARINE SURVEYS & CONSULTATION

SPECIALISTS IN YACHT AND COMMERCIAL VESSEL INSPECTIONS

FOR IMMEDIATE RELEASE

ALL NEW SURVEYING WEBSITE LAUNCHED Coincides with Steven Uthhoff Receiving AMS Designation

August 2010, Annapolis MD – Steven Uthhoff Inc., Marine Surveys and Consultation has launched its completely new website, www.annapolismarinesurveys.com. The launch coincides with Mr. Uthhoff earning the designation of Accredited Marine Surveyor from The Society for Accredited Marine Surveyors (SAMS®).

The comprehensive new website showcases Steven Uthhoff's reputation along the East Coast as an objective and thorough marine surveyor. "I have been using your survey as a working document. I commend you on your knowledge of boats and related systems, your professionalism and thoroughness," says Bob Leto, New York, in the *References* section. Other sections of www.annapolismarinesurveys.com include *Weird Stuff We Find* and a very useful description of the entire Pre-Purchase Survey process. *Vessels Inspected* is a searchable database with photos of all vessels surveyed over the past 5 years. Mr. Uthhoff was recently chosen as the surveyor for the clipper ship "Pride of Baltimore II" and the historic Liberty Ship "S.S. John W. Brown."

In addition to the new website, Steven Uthhoff Inc., Marine Surveys and Consultation is proud to announce that Mr. Uthhoff has received the designation Accredited Marine Surveyor (AMS) from The Society for Accredited Marine Surveyors (SAMS®). The AMS classification indicates members who have at least five years of professional surveying experience and have successfully passed a four-hour written examination. "Passing the AMS exam wasn't easy, but I feel very satisfied knowing I was able to achieve this goal," said Steve.

Steven Uthhoff Inc., Marine Surveys and Consultation was founded in 2006 after Mr. Uthhoff served as an apprentice under Robert Noyce, Marine Surveyor. Services offered include pre-purchase, insurance and appraisal surveys, blister and bottom inspections, infrared thermal imaging, audio gauging, and repair consultation. Based in Annapolis, Maryland, Steven Uthhoff Marine Surveys serves the East Coast and occasionally goes across the country.
